

Karmsund Certification AS  
Storasundvegen 89  
4260 Torvastad

## **Karmsund Certification AS - approved as qualified yard/workshop**

Reference is made to your e-mail dated 9<sup>th</sup> of March 2020 enclosed with information regarding sufficient equipment for testing and maintenance.

In accordance with "*Regulation of 17 January 1978 No. 4 concerning Cargo-Handling Appliances in Ships*", the Norwegian Maritime Authority has approved

### **Karmsund Certification AS**

as a qualified yard/workshop based on information given in e-mail mentioned above and that Leif Morten Framnes – competent persons type B-1 are connected to the firm.

We would like to emphasize that all approval of lifting appliances must be done by a competent person approved by NMA and that this approval does not give the yard/workshop a possibility to use other persons engaged in the company without such an approval.  
Furthermore, the approval is not connected to Life Saving Appliances and service providers.

Yours faithfully,

Anders Mathisen by authority  
senior surveyor

Roar Haugan  
senior surveyor
